

“  
YOU MUST WORK-  
WE MUST ALL WORK-  
TO MAKE THE  
WORLD WORTHY OF  
ITS CHILDREN.  
”

- Pablo Casals (1876-1973)

In today's world, there is no justification for denying any child a legitimate hope for the future and a reasonable expectation of successful entrance into adulthood. As we bring together the influence of families, schools, businesses, and communities, there is a real chance of extending opportunities to all children, allowing them to make a strong connection with the promise of life.

### OUR MISSION...

is to help prepare those people who prepare our children.

### WE BELIEVE...

that the well-being of every child is connected to influential adults and that the strength of this interaction is determined by the quality of those relationships.

### OUR PURPOSE...

is to strengthen individuals, schools, communities, and businesses in measurable and sustainable ways for the benefit of all children.

### WE ARE COMMITTED...

to the active pursuit and development of resources that benefit children and those who help them.

**LEGACY**  
FOUNDATION

The Legacy Foundation is a research and development non-profit 501(c)3 organization that devotes its time and resources to improving the lives of children.

**LEGACY**  
FOUNDATION  
SINCE 1995

WE HELP THE PEOPLE WHO  
PREPARE OUR CHILDREN.

## WE DO RESEARCH AND PROMOTE DEVELOPMENT

Businesses, governments, and schools can take significant actions to ensure we are prepared to help them make the difference between success and failure in life.

When we discover a need, we research and develop programs that meet and satisfy that need. We also search for successful programs created by others and collaborate with them to make these programs available to schools, churches, and government social service leaders—the organizations most effectively positioned to help children.

## THROUGH LEADERSHIP

There are significant actions that businesses, governments, and schools can take to ensure that we are better prepared to do what is necessary for the future of our children. The Legacy Leadership Institute inspires action among leaders who have meaningful contact with children. Through training of these leaders, large numbers of children reap the benefits of those who are willing to help them foster the skills they need to successfully navigate their way through life.

## THROUGH EDUCATION

Education is about the future, and teaching is the tool that creates it. By utilizing the efforts and abilities of people willing to make a difference, they will leave a legacy of improved learning among our children.

We help people prepare to meet the urgency of needs by distinguishing effective innovations from less effective programs and methods of teaching that are not as effective. By changing narrowly defined education, we allow maximum growth potential and build upon upon the achievements of the past while improving the present and ensuring the future.

## THROUGH ETHICAL TRAINING

Children do better when their families do better, and families do better when they live in supportive communities that uphold a high level of ethical standards. Our ethical training involves educating and persuading the community regarding its role in teaching children the most important lessons in life.
